ENVISIONING YOUR FUTURE

One of the best gifts we can leave our family is making sure our plans and financial affairs are in order. Creating a will and estate plan can provide family peace of mind and also demonstrate our values.

Part of being a good steward of what God has given us is choosing how you want to bless others, both now and in the future. We have partnered with **PhilanthroCorp** to help make the estate planning process easier and you can find out more about the ministry through one of the upcoming webinars by signing up [here](#).
